### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Delete lines 6-20 of page 3.

Delete pages 4-13.

Applicant had included claims under section heading Summary of Invention in the specification.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the claimed device a plurality of adjustable gratings, each adjustable grating movable between a corresponding first position which produces Bragg reflection in the variable delay line and a second position which does not produce Bragg reflection in the variable delay line, the circulator receiving Bragg reflected signals at the processing port and outputting the Bragg reflected signals at an output port of the circulator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Meil discloses a device for reducing the optical noise including a delay line. Spaelter discloses a tunable optical delay line using Bragg gratings. Both of these references fail to disclose movable grating as claimed.

The prior art submitted by applicant has been considered. See attached copy of form PTO-1449.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hemang Sanghavi whose telephone number is (571) 272-2358. The examiner can normally be reached on Monday-Thursday (8:30 AM-6:00 PM).
